

Fuel Contamination Kit

Work Required

Performing the following work on the 2018 Ford F-650 Box truck vin 1FDNF6DE4JDF06398:

Fuel Contamination Kit, Oil Change, Fuel Filter, Air Filters since the fuel pump came apart and contaminated the fuel system. This service will also include removing the tanks to power wash them, flush fuel lines, replace the injection pump, injectors, rails, and refill with diesel. The injectors will then need to be programmed.
